

Stand-alone ensuites provide the perfect solution for anyone requiring the flexibility of a complete ensuite in addition to their existing infrastructure. These units are purpose built and provide all the usual features associated with Ensuites to suit high quality of products. The self contained style of these units means that the usual hassles normally associated with on-site construction are eliminated as the ensuites arrive fully constructed and ready for connection to services.

Each unit is complete both internally and externally, and the interior is finished in a smooth, white gloss, gel-coat which is highly durable and very easy to clean.
